NEWS RELEASE

CFIB ranks best & worst property tax gaps in Northern Sask.

Spiritwood had the lowest municipal property tax gap in 2016; Shellbrook had the highest

Regina, December 6, 2017 – The Canadian Federation of Independent Business (CFIB) released its annual comparison of property tax gaps in Saskatchewan municipalities. On average, commercial property owners paid 2.21 times what residential owners paid in municipal property taxes.

“While some municipalities in the North are doing a better job than others in making municipal property taxes fairer for small businesses, there is still more work to be done,” said Jennifer Henshaw, CFIB’s Senior Policy Analyst for Saskatchewan and co-author of the report. “This report should be required reading for all municipal leaders as they determine their 2018 operating budgets in the coming weeks.”

CFIB’s 10th annual edition of [*Wanted: Property Tax Fairness in Saskatchewan*](#) examines municipal and total property tax gaps for the 75 municipalities and 31 Rural Municipalities (RMs) with populations of 1,000 or greater. The gap measures the ratio of commercial and residential property tax bills for properties assessed at a value of \$200,000.

A provincial tax gap of 2.21 means Saskatchewan commercial property owners paid, on average, \$2.21 for every dollar in municipal property tax paid by homeowners. In Northern Saskatchewan, this amount ranged from \$1.30 to \$4.18, with an average of \$2.29. Out of the 12 municipalities examined, six had no change from 2015-16 and six reduced their gap (see North Backgrounder).

Spiritwood had the lowest municipal property tax gap in the North; Shellbrook had the highest

The Good:

- Spiritwood boasted the lowest municipal property tax gap of 1.30
- Battleford had the lowest commercial municipal property tax bill of \$2,685

The Bad:

- Shellbrook had the most unfair municipal tax system with a municipal property tax gap of 4.18, and had the highest commercial municipal property tax bill of \$6,850

When provincial education property taxes are factored in, commercial property owners in Northern Saskatchewan still paid, on average, 2.29 times what residential owners paid in property taxes.

“Entrepreneurs are fed up with getting the short end of the property tax stick and worry many municipalities will continue to hike property taxes to fund unsustainable spending,” concluded Henshaw. “The majority of municipalities need to work harder to further contain costs and commit to a plan to make their property tax system more fair for entrepreneurs.”

CFIB’s report outlines a series of recommendations for provincial and municipal governments to ensure the property tax system becomes more balanced over time.

Local Governments

CFIB has made a number of recommendations to reduce the municipal property tax gap:

- ▶ Develop and implement a plan over time to reduce the commercial-to-residential property tax gap.
- ▶ Limit year-over-year operating spending growth to a maximum of inflation and population growth.
- ▶ Reform costly and outdated municipal banked sick day policies.
- ▶ Review current programs and services to identify areas that can be streamlined or eliminated.
- ▶ Introduce a plan to reduce the size and cost of the municipal civil service (primarily through attrition).
- ▶ If applicable, consider the introduction of a base tax for all homeowners.
