Maidstone Moves Forward with Cedar Crescent Park Project

With the financial support of the Government of Canada, the Town of Maidstone is pleased to announce the beginning of the Cedar Crescent Park project. This project will deliver a community park, playground, and walking trail system.

Through the Canada Community Revitalization Fund, the Government of Canada will contribute \$196,523 toward this project. The Town of Maidstone will fund the remaining \$64,085.

Construction will begin this June with the landscaping of the undeveloped area between Birch Drive and McConnell Drive. A playground will be installed at the eastern end, and a walking trail system will connect the park with the neighborhood around it. The project is targeted to be complete before the end of this year.

This project will address the need for outdoor recreation opportunities on the west side of Maidstone. It will also position this community for growth by adding value to the surrounding neighborhood and the desirability of the community as a whole.

We welcome you to visit the Town Facebook page, *Maidstone Now SK*, for updates as the project unfolds.

About the CCRF: The Canada Community Revitalization Fund helps communities rebound from the COVID-19 pandemic. The CCRF is a two-year, \$500 million national program to revitalize communities through smaller infrastructure projects across Canada. The fund assists non-profit organizations, municipalities, community groups and Indigenous communities to build and improve community infrastructure projects.
